Letter of Recommendation

28 September 2026

To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for Mr. Axel Marvelous Surya, who worked with AutoGlaze (PT. Surya Cemerlang Royalindo) as a UI/UX Designer from 1 August 2025 to 30 September 2025. During this period, Axel was responsible for designing and developing our company website and customer booking application.

Axel showed strong initiative and ownership throughout the project. He took the time to understand our business and our customers' needs, and turned them into a product that is clear, functional, and visually polished. He approached his work with creativity and attention to detail, and communicated his progress clearly and professionally.

Beyond his design and technical abilities, Axel proved himself to be dependable and responsible, consistently meeting deadlines and holding his work to a high standard. I am confident that he will bring the same commitment and skill to any organization he joins, and I recommend him without hesitation.

Should you require any further information regarding Axel's qualifications or performance, please do not hesitate to contact me.

Sincerely,

Robert Benedicthus Kurnia
Business Development Manager
